Fees and funding

Article-processing charges

Open access publishing is not without costs. *Addiction Science & Clinical Practice* therefore levies an article-processing charge of £1790.00/\$2490.00/€2090.00 for each article accepted for publication, plus VAT or local taxes where applicable.

If the corresponding author's institution participates in our open access membership program, some or all of the publication cost may be covered (more details available on the [membership page](#)). We routinely waive charges for authors from [low-income countries](#). For other countries, article-processing charge waivers or discounts are granted on a case-by-case basis to authors with insufficient funds. Authors can request a waiver or discount during the submission process. For further details, see our [article-processing charge page](#).

BMC provides a free open access funding support service to help authors discover and apply for article processing charge funding. Visit our [OA funding and policy support page](#) to view our list of research funders and institutions that provide funding for APCs, and to learn more about our email support service.

Guidelines for Authors

I. GENERAL PRINCIPLES

The submission should include the following items:

1. Manuscript: The author should submit a complete manuscript including the title page, abstract, text, a list of references, table(s), and figure legends.
2. Figures (separate files in TIF or JPEG format).
3. Cover Letter: A cover letter must be provided along with every manuscript. The cover letter should contain:
 - (1) The corresponding author's name, postal and e-mail addresses, telephone and fax numbers.
 - (2) The title of the manuscript and a brief paragraph explaining significance of the work.
 - (3) Type of manuscript.
 - (4) A statement that the submitted manuscript is an original and unpublished work of authors and is not under simultaneous consideration for publication by any another journal.
 - (5) Any conflict of interest.
 - (6) The names, institutional affiliations, and postal and email addresses of 3 or more qualified reviewers.

II. TYPES OF MANUSCRIPT

1. **Original articles:** Original articles are peer reviewed and report details of original studies that have not been published previously. Generally, Manuscript should be divided into the following sections and appear in the order: (1) Title page, (2) Abstract including Keywords, (3) Introduction, (4) Materials and Methods, (5) Results, (6) Discussion, (7) Acknowledgments (optional), (8) References, (9) Tables, (10) Figure legends, (11) Figures (Illustrations).
2. **Reviews:** Review introduces the reader to a particular area of an author's research through a concise overview of a selected topic. The content should balance scope with depth, but it should not exceed 10,000 words (excluding references). Reference to important work from others that is significant to the topic should be included.
3. **Short Communication:** Short Communication is a report of unusual urgency, significance and interest originating in all areas of biological aging and aging-associated disease, which may not exceed 2000 words. An introductory paragraph should explain its significance and the end paragraph may summarize the major conclusions that can be drawn pointing to possible future directions.
4. **Letters to the Editor:** Letters to the Editor will be considered only when relating to recent articles published in *Aging and Disease*. Letters to the Editor are published online only but are referenced in the printed contents list.
5. **Commentary:** A commentary is a more in-depth analysis written to draw attention to a work already published. Most Comments are commissioned by journal editors, but spontaneous Comments are considered on topics relevant to a general

IV. Open Access statement

A&D is an open access journal, which means that all content is freely available without charge to the user or his/her institution under the terms of the Creative Commons Attribution License. Users are allowed to read, download, copy, distribute, print, search, or link to the full texts of the articles, or use them for any other lawful purpose, without asking prior permission from the publisher or the author.

V. Copyright, Licensing, Publishing Rights

A&D is Open Access is by [licensing the content with a Creative Commons \(CC\) license \(CC BY\)](https://creativecommons.org/licenses/by/4.0/). More information can be found at <https://creativecommons.org/licenses/by/4.0/>

VI. Plagiarism Policy.

Plagiarism is when an author attempts to pass off someone else's work as his or her own. Duplicate publication, sometimes called self-plagiarism, occurs when an author reuses substantial parts of his or her own published work without providing the appropriate references. This can range from getting an identical paper published in multiple journals, to 'salami-slicing', where authors add small amounts of new data to a previous paper. To help editors verify the originality of submitted manuscripts, selected submitted manuscripts are scanned using the *Plagiarism* Prevention Software Turnitin and compared with the CrossCheck database.

VI. Publication Fees

The articles published in *Aging and Disease* are Open Access. To support Open Access publishing, A&D charges a publication fee (\$600-3,000) to offset peer review management, articles convert to XML format, journal production and online hosting, submission system and archiving. The publishing fees are paid either by the author or on their behalf (for example by their institution).

Instructions to the Authors

1. Guide for Authors

Welcome to submit your manuscript to Asian Journal of Andrology (AJA). The instructions below are structured so you can quickly and easily answer the following questions:

1. Is my manuscript suitable for AJA? (see 'Aims and Scope')
2. How do I format my manuscript for AJA? (see 'Manuscript File Formats')
3. How do I submit my manuscript to AJA? (see 'Submission of Papers')
4. What should I do before my manuscript is accepted? (see 'Before submission')
5. What can I expect after my manuscript is accepted? (see 'After Acceptance')
6. What is the **Article publication charge?** (see 'Cost')

掠奪型期刊的陷阱-真實案例

- 搭上Open Access的學術風潮，但他們是以「**獲利**」為目的，引誘或騙取研究者稿並支付高額費用，但其內部文章的審稿或品質都是令人產生質疑

❖ 要求費用：

- 1) Article Processing Charges – 文章處理費
- 2) Submission Charges – 送審費
- 3) Publication Charges – 刊登費

不明的來信邀稿

寄件人: Neuropsychiatry <Neuropsych@neurologyinsights.org>
標題: Follow-up: Update Neuro & Psychiatry Studies: NPY (IF: 1.45)

Hello 小明醫師,

Greetings from Neuropsychiatry....

We have approached you through research invitation yesterday by e-mail, for eminent submission. Since we are familiar with your preoccupied schedule and commitments in research works, we haven't received any feedback, hence resending the invitation.

We are happy to inform you that Neuropsychiatry (Impact Factor: 1.45) is now accelerating submissions for Upcoming Volume of 2017.

We accept all research forms for quality dissemination.

Indexed in: Journal Citation Reports/Science Edition, Science Citation Index Expanded (SciSearch®), Scopus, EMBASE/Excerpta Medica, EMCare.

Manuscripts & possible queries can be submitted via mail directly at Neuropsych@neurologyinsights.org

Sincerely,
JJ
Editorial Coordinator
Neuropsychiatry

掠奪性期刊的定義？

掠奪性期刊的手段？

掠奪性出版商以欺騙手段剝削作者，最常見的剝削形式：

- 提供關於其讀者群，重要性和期刊監管的虛假資訊
 - 影響因子 (Impact Factor)
 - 編輯委員會
 - 期刊內容方面
 - 同儕評閱 (Peer Review)
- 通過欺騙手段取得智慧財產權
- 未經本人知情或同意的情況下，將領域內的資深研究者列為主編/編輯群
- 收取過高或隱藏的文章處理費

EDITORIAL AND REVIEW BOARD

American Journal of Advances in Medicine (ISSN: 2454-9061) is an international, open access journal published by the Geneva Foundation for Medical Education and Research with Foundation for Promotion of Basic and Applied Sciences in Continuous Publication Model. The journal covers a wide range of articles related to advancement of medical and allied Sciences. Our main objective is to provide a platform for the advancement in the field of medical sciences. We welcome the following areas of medical and allied sciences:

1. Original research articles
2. Short communications
3. Review articles
4. Case reports

American Journal of Advances in Medicine covers the following areas of medical and allied sciences:

粗糙的期刊官網

圖像不清楚、文字錯誤、來歷不明的編輯群

The screenshot shows the homepage of the Journal of Neonatal and Pediatric Medicine. The header includes the journal title, ISSN (2672-4983), and an 'Open Access' badge. A navigation menu contains links for Home, Editorial Panel, Instructions for Authors, Submit Manuscript, Articles in press, Current Issue, Past Issues, Special Issues, Metrics, and Contact. Below the navigation, there are several promotional banners and sections. The 'Editorial Board' section features four members: Fuyong Jiao (Xian Jiao tong University, China), Selim Demir (GaziosmanpaAa University School of Medicine, Turkey), Misty Good (University of Pittsburgh, USA), and Nada Sindic Dessoardo (University of Rijeka, Switzerland). Other sections include 'Publication Policies and Ethics', 'Useful Links', 'Submit Manuscript' (with a Journal Impact Factor of 0.8823), 'Table of Contents' (December 2017 | Volume 3, Issue 2), 'About the Journal', and 'Journal Highlights'. The layout is dense and lacks clear visual hierarchy.

期刊名稱前後不一致

About the Journal

Journal of Neonatal and Pediatric Medicine (NNP) is a scholarly Open Access journal that aims to publish most complete and reliable source of information on vast topics of nutrition that include various aspects of neonatal perinatal medicine, neonatal intensive care, neonatal treatment, neonatal drugs, neonatal feeding, neonatal nursing, neonatal infections in the mode of original research and review articles, as well as case reports, short communications, commentaries, mini reviews and making them freely available online without any restrictions or any other subscriptions to researchers worldwide.

The peer-review process is designed to ensure the consistency of the submitted manuscripts in line with the set guidelines for a standard open access case report or research paper. The **Neonatal and Pediatric Medicine** has been acquired by OMICS International for dissemination of knowledge in the field of Neonatal health care and medicine with provision of free sharing and transmission of articles under the norms of the Bethesda Statement.

Information for authors

Wulfenia publishes original research studies written in English dealing with botany, giving preference to systematics, taxonomy, floristics, morphology, chorology and vegetation science. Manuscripts must be of general interest and not only addressed to a specialized readership. Contributions from all over the world are welcome. The journal is annual. Please send manuscripts to the editor until June 30th.

Manuscripts:

Impact Factor (IF值) 由科睿唯安一年發表一次於 Journal Citation Reports (JCR)

您知道什麼是Impact Factor?

影響因子(Impact Factor) 的計算方式

假的Impact Factor

套用IF的計算公式，但採計期刊範圍卻大不同（例Google Scholar）或造假

*2017 Journal Impact Factor was established by dividing the number of articles published in 2015 and 2016 with the number of times they are cited in 2017 based on Google Scholar Citation Index database. If 'X' is the total number of articles published in 2015 and 2016, and 'Y' is the number of times these articles were cited in indexed journals during 2017 then, journal impact factor = Y/X

如何聰明避開掠奪型期刊的陷阱

- 確認出版商網頁上需有詳細的各項聯絡資訊
- 檢查期刊的編輯委員名單
- 確認期刊的收費制度
- 注意 email 上可疑期刊的邀稿或是編輯委員的邀聘 (Gmail或非正式電子郵件)
- 有無正規的投審稿系統，例如ScholarOne
- 瀏覽期刊上的文章，評估其價值與可信度。聯繫文章作者，詢問該期刊的發表經驗
- 檢查期刊是否有清楚描述其同儕審查制度
- 確認其提供的各項數據 (如宣稱具有Impact Factor指標、謊稱被某知名資料庫收錄)

善用資源避開掠奪型期刊的陷阱

DOAJ (Directory of Open Access Journals)

DOAJ is a community-curated online directory that indexes and provides access to high quality, open access, peer-reviewed journals. DOAJ is independent. All funding is via donations, 40% of which comes from [sponsors](#) and 60% from [members and publisher members](#). All DOAJ services are free of charge including being indexed in DOAJ. All data is freely available.

DOAJ operates an education and outreach program across the globe, focussing on improving the quality of applications submitted.

Latest News

Why do we ask applicants to wait 6 months before they apply again?

When we reject an application, the rejection email contains details about why the application was not successful and usually tells applicants that they must wait 6 months before submitting another application for the same journal to us. Why do we do this? One reason is that it is an attempt to discourage repeat applications, made [...] [Read More...](#)

摘要

Medial temporal lobe (MTL) atrophy is a common finding in the diagnosis of Alzheimer's disease. MTL atrophy has been associated with MTL atrophy including hippocampal sclerosis, neurodegeneration, and cognitive decline. The relationship between MTL volume on MRI and age-related degenerative and microvasculature changes in postmortem whole brain MRI and stereological estimates of the total number of neurons in a consecutive autopsy series of 21 older individuals (11 females and 10 males, mean age 78.5 years) was examined. Our results revealed a very high percentage of cases with hippocampal CMIs (52%), pa

Journal Citation Reports : 新增Open Access數據

- ✓ 找到能夠以開放獲取模式出版您的文章的期刊
- ✓ 瞭解期刊的獲取模式如何影響學術討論
- ✓ 對機構的開放獲取政策做出數據的決策

// 這是科睿唯安為支持開放研究而採取的一系列行動中的最新舉措。當尤金·加菲爾德博士1975年發布第一份《Journal Citation Reports》時，所有入選期刊都是印刷出版，根本不存在開放獲取。期刊的出版和獲取方式已經改變，但Journal Citation Reports的宗旨依然不變：提供全面豐富的數據，幫助科研共同體更好地瞭解期刊對文獻的貢獻和對學術話語的影響。

Volume: 62 Issue: 4 Pages: 337-339
DOI: 10.6165/tai.2017.62.337
Published: DEC 2017
Document Type: Article

Abstract
Lysionotus gamosepalus var. biflorus, a new variety from northeastern India is described and illustrated with photographs. Information on its ecology is provided. The new taxon is morphologically similar to L. gamosepalus var. gamosepalus but can be easily distinguished by a combination of characters such as un-branched pair-flowered cyme, hairy corolla and two coiled staminodes.

Vascularized cranial bone grafts for mandibular and maxillary reconstruction: the parietal osteofascial flap
PH Choung, IW Nam, KS Kim - Journal of Cranio-Maxillofacial Surgery, 1991 - Elsevier
The authors have performed 13 cases of vascularized cranial bone grafts for reconstruction of maxillofacial defects since 1986. Two types of flaps were used: the parietal osteofascial flap pedicled to the parieto-temporal fascia based on the superficial temporal artery and the ...

Reconstruction of maxillofacial bone defects: contemporary methods and future techniques
R Alfotawi, A Ayoub - American Journal of Advances in Medical Science, 2014 - eprints.gla.ac.uk
Reconstruction of maxillofacial continuity defects has always been a challenging task for the scientist and surgeons over the years. The main goal of the reconstruction of the maxillofacial region is to restore facial form, function, full rehabilitation of occlusion and articulation. A refinement in surgical technique and methods of reconstruction has improved patient's quality of life. This manuscript reviewed exciting methods of bone reconstruction and confirms that the ideal system for reconstruction of critical size continuity defect of the ...

Animal studies of application of rhBMP-2 in maxillofacial reconstruction
PJ Boyne - Bone, 1996 - Elsevier
A pilot study in adult male Macaca fascicularis (rhesus) monkeys was undertaken to observe the effect of two dose ranges of recombinant human BMP-2 on bone regeneration following bilateral hemimandibulectomies. The mandibulectomies consisted of 2.2 centimeter ...

Welcome to Journal Citation Reports

Key messages take away

- 1 Web of Science是研究人員可信賴的文獻資源收集入口
- 2 透過WOS/JCR協助您查找更多相關期刊的收錄，找出投稿的要點與清單
- 3 期刊投稿必須小心!小心!再小心
勿過度依賴Google，運用各方資源，只要被質疑過的期刊都應該謹慎
- 4 JCR並非只是一個提供官方的Impact Factor而已，有更多期刊的數據可以參考，以瞭解期刊整體影響力表現
- 5 科睿唯安提供一系列科研資料庫與工具，協助加速科學研究的速度

謝謝
