電子資源查詢系統(ERMG)

單一入口：

一次登入即可使用本院訂購之資料庫、
電子期刊、**電子書**，另整理免費網路資源方便同仁連結使用。

電子資源查詢系統(ERMG)登入

■ 院內網路→教學與圖書→電子資源→林口長庚

The screenshot displays the ERMG system interface. At the top, there is a navigation bar with the following elements: a green cross logo, the text '長庚醫療財團法人 林口長庚紀念醫院', and three utility icons: '醫療體系', '全球資訊網站', and '友善連結'. Below this is a secondary navigation bar with tabs: '常用功能', '訊息公告', '表單櫃', '政令規章', '申請與查詢', '網路化作業', '交流園地', '福利走廊', and '教學與圖書'. The main content area is titled '教學與圖書' and features a grid of links categorized into four columns: '院區教學部', '院區圖書館', '電子資源', and '期刊雜誌'. Each category lists various resources such as '基隆長庚', '土城醫院', '林口長庚', '桃園長庚', '嘉義長庚', '高雄長庚', '長庚學報', '長庚醫訊', '中醫簡訊', '外科部通訊', '長庚婦產通訊', '高雄醫教簡訊', '長庚護理雜誌', '長庚醫檢學報', '長庚藥學學報', '台塑企業雜誌', '女醫師聯誼會', and '北長庚醫師聯誼協會'. There is also a '學習歷程' section with links for '電子學習護照', '學習里程碑', '醫事職類教學平台', and '教學資訊平台'. A small image of a lecture hall is visible under the '院區教學部' category.

Fluoroscopic Study of the Abdomen and Fluoroscopic Contrast Media

Naveen M. Kulkarni, Pritish Aher 及 Koichi Hayano
Abdominal Imaging, 2, 10-15

沒有購買PDF檔的版權

Fluoroscopy is a type of imaging technique in which real-time movements of body organs and radiopaque contrast material are visualized. During a fluoroscopic examination, the operator or radiologist controls the functions of radiography equipment and x-ray tubes for real-time imaging of the patient. In abdominal imaging, fluoroscopy has a role in the diagnosis of various clinical conditions with gastrointestinal studies, postoperative studies, genitourinary studies, and more.

Technical Aspects

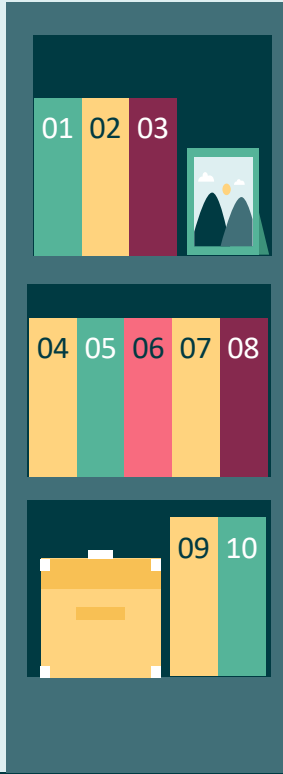

Fluoroscopy

History

Early fluoroscopes had an x-ray tube and fluorescent screen made of barium platinocyanide. Gradually, the screens were replaced by cadmium tungstate and then zinc-cadmium sulfide, which produced a yellow-green emission. ¹

GENERAL CONSIDERATIONS

Stenosis of the pulmonary valve or RV infundibulum increases the resistance to RV outflow, raises the RV pressure, and limits pulmonary blood flow (eFigure 10–14). Pulmonic stenosis is often congenital and associated with other cardiac lesions. Pulmonary blood flow preferentially goes to the left lung in valvular pulmonic stenosis. Most patients with valvular pulmonic stenosis have a **domed valve**, although some patients have a **dysplastic valve**, especially those with **Noonan syndrome**. The phenotype of Noonan syndrome includes short stature, web neck, dental malocclusion, antimongoloid slanting of the eyes, mental retardation, and hypogonadism. Unlike those with a domed valve, patients with a dysplastic valve do not have a dilated main PA or commissural fusion. In the absence of associated shunts, arterial saturation is normal. Peripheral pulmonic stenosis can accompany valvular pulmonic stenosis and may be

Content

- + PART I Fundamentals
- + PART II Cranial Vault and Bony Face
- + PART III Orbital
- + PART IV Nose

A screenshot of the Thieme MedOne E-Book interface. At the top, there is a search bar and navigation buttons for PDF, Playlist, and Share. The main content area shows the title 'PART I Fundamentals' and 'PART I Fundamentals'. Below this, there is a 'Quick access' section with a list of chapters: 'CHAPTER 1 Fundamental Principles', 'CHAPTER 2 Cranial Vault and Bony Face', 'CHAPTER 3 Orbital', 'CHAPTER 4 Nose', 'CHAPTER 5 Maxilla and Mandible', 'CHAPTER 6 Ear', and 'CHAPTER 7 Cleft Lip and Palate Repair'. A pop-up window is overlaid on the right side of the page, showing a table of contents for the 'Atlas of Operative Craniofacial Surgery (2019; 1st Edition)'. The pop-up window has a close button and a scroll bar. The text in the pop-up window is as follows:

Frontmatter (PDF)

- + PART I Fundamentals
- + PART II Cranial Vault and Bony Face
- + PART III Orbital
- + PART IV Nose
- + PART V Maxilla and Mandible
- + PART VI Ear
- + PART VII Cleft Lip and Palate Repair

The main text on the page below the pop-up window discusses the field of craniofacial surgery and mentions the Society of Plastic and Reconstructive Surgery. It also mentions the work of many outstanding surgeons, including Skoog, and many others—but Tessier's pres... the correction of orbital hypertelorism, and the correction of oro-ocular clefts. Although Gilles had previously described a LeFort III osteotomy, Tessier's description of the LeFort III osteotomy used a significantly different technique and showed dramatic results, all fully documented with high-quality clinical photographs and detailed illustrations. This work on midface advancement, hypertelorism, and facial clefts set the cornerstone for the establishment of the new subspecialty of craniofacial surgery (Fig. 1.1).

CHAPTER 1 Fundamental Principles | CHAPTER 2 Craniofacial Nerve Blocks

CHAPTER 1 Fundamental Principles

Kristen A. Klement, Robert J. Havlik

The field of craniofacial surgery has a definite start date—Paul Tessier’s presentations of his seminal work at the Fourth International Society of Plastic and Reconstructive Surgery in Rome in 1967. Although Tessier had been developing and refining his approach and techniques for nearly a decade before this, he shared his work with the world during his presentations at Rome. Certainly, his effort was built on the work of many outstanding efforts that preceded it—Gillies, Blair, Brown, Kazanjian, Ivy, Converse, Millard, Obwegeser, Skoog, and many others—but Tessier’s presentations created a radical paradigm shift, presenting new techniques and sweeping new concepts. During this meeting, Tessier gave presentations on the LeFort III osteotomy (with a 9-year follow-up), the correction of orbital hypertelorism, and the correction of oro-ocular clefts.¹ Although Gillies had previously described a LeFort III osteotomy, Tessier’s description of the LeFort III osteotomy used a significantly different technique and showed dramatic results, all fully documented with high-quality clinical photographs and detailed illustrations. This work on midface advancement, hypertelorism, and facial clefts set the cornerstone for the establishment of the new subspecialty of craniofacial surgery (Fig. 1.1).

MD, the father of craniofacial surgery. (Photo courtesy of Tony Wolfe, MD.)

ination, there were many visits by surgeons from around the world to visit Tessier in France, and many visits to the United States and other countries, that fostered the development of the field of craniofacial surgery and the acceptance of its principles. Fifteen years later, the International Society of Craniofacial Surgery was established in 1983 for the purpose of furthering the field of craniofacial surgery. Tessier elucidated five primary principles through his work that serve as the foundation for modern craniofacial surgery.² These five principles include the following:

The image shows a screenshot of the UDN Library website interface. On the left, there is a vertical navigation menu with colored bars and numbers 01 through 10. The main content area features a green header with the UDN Library logo and navigation links: '借閱規則', '使用說明', 'APP下載', and '繁體中文'. Below the header, a white modal window titled '登入' (Login) is displayed for '林口長庚醫院圖書館' (Lin Kou Chang Geng Hospital Library). The modal contains fields for '帳號' (Account) and '密碼' (Password), with a note that the account number is the same as the ID card number for Lin Kou and Taoyuan branches. A green '登入' button is at the bottom of the modal. In the background, the website shows a book cover and a '電子書' (E-books) section. An orange arrow points to the '登入' button in the top right corner of the website.

凌網中文電子書 (HYREAD EBOOK)

凌網中文電子書 (HYREAD EBOOK)

The image shows a screenshot of the HyRead website interface. On the left side, there is a vertical navigation menu with ten numbered items (01-10) represented by colored bars. The main content area features a large banner for 'HYREAD Gaze 電子紙閱讀' (Electronic Paper Reading) with the tagline '無藍光、近紙感、手寫順' (No blue light, paper-like feel, smooth handwriting). The banner includes the text '買書/租書/借書/個人藏書, Gaze搞定你的閱讀需求!' and displays three e-book covers: '好好拜託' (Goodbye), 'OKR 做最重要的事' (Measure What Matters), and '金錢心理學' (Dollars and Sense). Below the banner is a '精選電子書' (Selected E-books) section with several book covers. On the right side, a '讀者登入' (Reader Login) form is overlaid, containing fields for '學校單位' (School Unit) with a dropdown menu showing '長庚醫院林口圖書館', '讀者證號[?]' (Reader ID), '身分證字號' (National ID Number), '密碼 / Password', and '生日民國年月日' (Date of Birth in Republic of China). A '登入' (Login) button is at the bottom of the form. A small提示 (Note) at the bottom of the form reads: '※小提示: 若不清楚帳號密碼, 可向您的圖書館詢問, 或詢問HyRead電子書客服 service@hyread.com.tw'.

凌網中文電子書 (HYREAD EBOOK)

The image shows a screenshot of the HYREAD EBOOK website. On the left, there is a vertical sidebar with three sections of colored bars and numbers: 01-03, 04-08, and 09-10. The main content area features the HYREAD logo and the text '臺灣學術電子書暨資料庫聯盟' (Taiwan Academic E-Book & Database Consortium). The top navigation bar includes '電子書', '主題特展', and '精選文章'. The main content area displays a book titled '今晚吃什麼?:日本主婦和台灣太太的家庭常備菜交換誌'. A modal window is overlaid on the page, showing a success message: '借閱成功:請至『我的書櫃』閱讀。您在『臺灣學術電子書資料庫聯盟』已借1冊書/可借5冊書;已借0冊雜誌/可借0冊雜誌。' Below the modal, there are buttons for '到個人書房' (Go to personal library) and '繼續借書' (Continue borrowing). On the right side of the page, there are buttons for '借閱' (Borrow) and '隨借隨還' (Borrow and return anytime), with a note '可借 97 冊' (Can borrow 97 books). At the bottom right, there is a large orange text overlay that says '每人可借5冊' (Each person can borrow 5 books).

凌網中文電子書 (HYREAD EBOOK)

The screenshot displays the HYREAD EBOOK user interface. On the left, a dark sidebar contains ten numbered items (01-10) with corresponding colored bars and a small landscape icon. The main content area is titled '書房' (Library) and includes a user greeting 'Hi!' and an email input field with a '修改' (Edit) button. A left-hand navigation menu lists '我的書櫃' (My Bookshelf), '借閱歷史' (Borrowing History), '預約紀錄' (Reservation Record), and '收藏清單' (Collection List). The main area features a message about the bookshelf, a '還書說明' (Return Book Instructions) section, and a '顯示類別' (Display Category) dropdown set to '全部'. A '借閱資訊' (Borrowing Information) button is located on the right. A book recommendation card for '今晚吃什麼?' (What to Eat Tonight?) is shown, with a '電子書' (E-book) label, a '到期日: 2022-06-10 (剩餘天數14天)' (Due Date: 2022-06-10 (14 days remaining)) label, and a '借期: 14天' (Borrowing Period: 14 days) label. The book title is '今晚吃什麼?: 日本主婦和台灣太太的家庭常備菜交換誌'. Below the title, it lists the '借閱圖書館: 臺灣學術電子書資料庫聯盟' (Borrowing Library: Taiwan Academic E-book Database Alliance) and the '借閱日期: 2022-05-27' (Borrowing Date: 2022-05-27). At the bottom of the card, there are buttons for '線上閱讀' (Online Reading), '歸還' (Return), '借閱' (Borrow), and '書店購買' (Purchase from Bookstore).

燒き

日式炒麵

喜歡日式炒麵濃口的醬汁，麵中帶點酸甜的口味，有別於鹽味炒麵的清爽。

當冰箱裡有剩一小段的紅蘿蔔、用不完的高麗菜、豆芽菜、雞肉片等，特別是一個人午餐時，簡單的炒麵成了我果腹的快速料理。製作日式炒麵，想要偷吃步很容易，有一瓶日式炒麵專用醬汁就夠了，不過我也知道，真要與道地的日式炒麵相比，還真差了那麼一截。

即使是簡單的炒麵，美味靠的不只是食材、手藝，還有更多的小細節。慶子告訴我，麵條不只要用清水稍微漂洗一下，還得加入料酒和醬油，讓麵條表面沾附一點醬油與酒，這一層可是讓麵條緊緊牽住醬汁的關鍵，拌炒時會讓醬汁和麵條更加融合。

小技巧可不只這些，食材和麵條可別一口氣炒，先讓麵條煎炒到半熟焦黃色，再下食材，加入醬汁時，也可別馬虎，中心留個空間，倒入醬汁，起泡後就可將所有食材混和均勻。

準備一顆生蛋，打入碗中，快速地將蛋液打散，炒麵沾著生蛋一起品嚐，更加滑順，蔬菜的鮮甜、濃口的炒麵醬汁吃再多也不會膩口。

#燒きそば(炒麵) #好想吃炒麵
